

Window manufacturers know that homeowners expectations are high where style and quality are concerned. Independently tested by the German Institute for Window Technology, 5404 White and 5409 Black, allow manufacturers to apply plastic profiles to glass creating attractive, individual windows which are able to withstand the elements.

A reliable bond
that adds
style to
windows

Adhesivetapes.ie 5404 and 5409 ensures:

- Reliable bonding for internal and external applications.
- A seamless finish for traditional or custom designed windows.
- A long lasting, maintenance free result.

Reduce manufacturing costs

- Quick and easy installation - no mechanical fixings are required.
- Immediate bonding - saves time as no curing or drying time is required.
- Reduce waste - available in logs, rolls, die cuts and spools to compliment every application.
